

Free and confidential support for current investors

Here is what we can do for you

Helping find the right talent

The Investor Relations (IR) Programme is here to help your company find the talent with the skills you need for your operations. We make sure any international employees have a soft landing in the Netherlands, by assisting with visas and work permits, providing cross-cultural advice and linking to international schools.

Introduction to relevant parties

The IR Programme can introduce you to Dutch government organisations at the national, regional and local levels and bring you into contact with commercial service providers, such as consultants, agents, lawyers, and a wide variety of regional, national and international networks that are relevant to your company.

Providing access to subsidies

The IR Programme helps execute new investment and development projects, find and apply for subsidies, and assist expanding companies in many other ways. If you have any questions, our door is always open.

Advocacy

The IR Programme serves as a channel through which you can share your views and experiences concerning the investment climate in the Netherlands with the Dutch government. We collect your feedback, submit it to relevant government departments and

use it as input for governmental decisionmaking.

Providing access to networks

With the IR Programme, you can gain access to dozens of national and regional events organised each year, ranging from seminars and conferences to networking dinners, roundtable sessions and individual update meetings with representatives from the Dutch government. We will even help you make individual arrangements for tailor-made support and advice.

Providing insight into research

Our IR Programme is equipped to provide guidance on the network of public-private partnerships that flourish in the Netherlands. For example, we can provide insight into R&D incentives and direction on partnerships to maximise incentives.

We also help link education, government and business for assistance in everything from pooling talent to addressing the need for technical skills.

Benchmarks

The IR Programme can be a valuable partner in helping you support your business case for expansion of international activities in the Netherlands. We provide tools and input for cost and location benchmarking, help recruit talent and promote your company's presence in the Netherlands to increase company recognition and brand awareness.

A powerful network ready to help your company grow and overcome any challenge

We inform, invite, advise, assist, connect ... We care.

The Investor Relations Programme

The Invest in Holland network – a close collaboration of NFIA, regional development agencies, like the WestHolland Foreign Investment Agency, and a number of large cities – provides support. Not only to new foreign investors, but also to existing foreign investors that already have one or more operations in the Netherlands. The Investor Relations (IR) Programme aims to make it easier for businesses to grow and thrive in the Netherlands.

“Since day one, the cooperation and assistance of WFIA has been instrumental in the early success of Gramble, and I look forward to a strong relationship with them well into the future.”

Adam Palmer, Get Social HQ, The Hague

“The WFIA and the NFIA (The Netherlands Foreign Investment Agency) have played an integral part in our successful start-up and it has remained a close ally of ours to this day.”

Albert Kahlow, Air Energi, The Hague
